

**TRADE DEVELOPMENT AUTHORITY
OF PAKISTAN**

TDAP INTRODUCTION

Trade Development Authority of Pakistan is the premier trade promotion organization mandated to develop and promote products and services of the country in international markets. TDAP implements policies and directives of Federal Government and its Board of Directors for enhancing, promoting and facilitating trade.

TDAP supports and facilitates businesses through latest information and capacity building initiatives to enhance and improve their leverage in international trade.

To achieve its objectives, TDAP organizes as well as participates in local & international trade fairs, country specific exhibitions & trade delegations. It also conducts seminars and organizes contacts and information exchange events both physically as well as digitally.

This publication is part of the efforts of TDAP to share details and showcase Pakistan's products and services in international markets.

PRODUCT PROFILE

Pakistan is climatically capable of growing fruits easily and in abundance. The climatic diversity is such that it allows cultivation of nearly all types of fruit- temperate, tropical and subtropical. Apple, apricot, cherry, peach, pear, plum, grape, strawberry and currant are temperate fruit; banana, mango, guava, papaya and tamarind are tropical fruit that cannot stand even light frost and date, fig, orange and pomegranates are subtropical fruits.

Fruits contribute sizeable share with Agriculture Sector of Pakistan with a total production area of more than 0.74 Million hectares (2018-19) in Pakistan. About 30 different varieties of fruits are being produced, and of these Mango, Citrus, Apple, Guava, Melons, and dates are the major produce.

HS CODE

Fruits are exported under the HS code Chapter number 08.
